JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

14; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. October 26, steamship *Bergenseren*; crew, 17; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

J. GREY THOMAS,  
*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,  
*U. S. Marine-Hospital Service.*

CANADA.

*Smallpox in the city of Quebec.*

QUEBEC, CANADA, *November 5, 1901.*

SIR: I have the honor to state that 41 cases of smallpox were reported in this city for the week ended November 2, 1901. This is the first time in about a year that the disease has made its appearance here. Smallpox was reported in the western provinces during the summer, and since that time it has been steadily working its way eastward. Ottawa and Montreal were the largest cities in its path, but it was not until last week that the disease was reported here. The disease is very mild in character, and up to the present time there has been no mortality. General vaccination is being practiced. The local physicians hope to have all the residents vaccinated before the week is finished.

Respectfully,

VICTOR G. HEISER,  
*Assistant Surgeon, U. S. M. H. S.*

The SURGEON GENERAL,  
*U. S. Marine-Hospital Service.*

*Inspection of immigrants at Quebec during the week ended November 2, 1901.*

QUEBEC, CANADA, *November 4, 1901.*

SIR: I have the honor to report that for the week ended November 2, there were inspected 550 immigrants—passed, 535; detained, 15; \* \* \*.

Respectfully,

VICTOR G. HEISER,  
*Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,  
*U. S. Marine-Hospital Service.*

CHINA.

*Report from Hongkong.*

HONGKONG, CHINA, *October 1, 1901.*

SIR: I have the honor to transmit herewith an abstract of the bills of health issued at this port for the week ended September 28, 1901. Seven vessels were inspected during the week, 448 individuals were bathed at the disinfecting station, and 539 bundles of clothing and bedding were disinfected by steam.

There were 10 rejections during the week because of fever. Three cases of plague and 3 deaths were reported to the sanitary authorities, making a total of 1,747 cases and 1,644 deaths thus far this year. One case of enteric fever was also reported during the week, otherwise there were no communicable diseases reported in the colony during that time.

Unofficial reports state that a few cases of plague still continue to
